Proposed Rule Change (provide desired language and intent of rule):

At least 2 fences must be set at the maximum heights, or, if the standards are not able to be set at the maximum height, no less than 2" below maximum height. (Example: If the jumps are drilled for holes every 2", and the maximum height is 33", setting the jump at 32" is acceptable, as the jump will not be able to be set at 33".

Add: At the discretion of show management, maximum heights may be adjusted.

Reason/Justification for Rule Change (provide brief description of why this needs changed/added)

At the local level, where new or young people are just getting started, it is often difficult for a 39" pony to jump a 36" jump. I believe that instead of making this a moment of discouragement and perhaps losing them as members, we make this an opportunity to encourage.

This is just an option for shows at a local level.
